UN Regional Summaries

The 193 UN Member States are grouped into 22 geographic regions. Below are one-page overviews for each region, aggregating the RTLDI metrics. For each region we show a choropleth of enclosure strength (R) for its member countries (zoomed to the region using the same RTLDI atlas scale as the global map), key aggregates (population-weighted average R, total annual capital exclusions), and a breakdown of the 9 RTLP indicators. The breakdown reports the percentage of countries in the region scoring 'Yes' on each indicator and the estimated portion of the region's total capital exclusions attributable to shortfalls on that indicator (using the current η=0.30 scaled by each country's contextual 25% cap).

Regional statistics are derived directly from the per-country 2026 atlas values (with the 25% contextual cap applied). Regions with the largest capital exclusions are shown first.

UN REGIONAL SUMMARY

Eastern Asia

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
5	1,614.7m	0.05	$5,785.2B

The Eastern Asia region has a population-weighted average RTLP score of 0.05. This cumulative measure indicates that, across its 5 member countries, roughly 5% of the nine core protections are in place on average, corresponding to an estimated $5,785.22 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in Protection Against Arbitrary Detention, Civilian Protection in Conflict Zones, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Access to Justice, Socioeconomic Conditions—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $2,273.20 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.

Eastern Asia Region — Enclosure Strength (R)

Mollweide projection (equal-area, same RTLDI atlas R scale as global choropleth).

MEMBER NATIONS SORTED BY CAPITAL EXCLUSIONS

Country	R	G0 ($)	Pop	Capital Exclusions ($)

South Korea	0.33	36,239	51.8m	$450.09b
Mongolia	0.44	6,751	3.5m	$4.76b
North Korea	0.00	N/A	26.5m	$0m
REGIONAL TOTAL	0.05		1614.7m	$5785.22b

RTLP INDICATOR BREAKDOWN FOR THE REGION

Lever 1: Legal Protections | 20% Yes (1/5)
Annual exclusion: $596.6B (10% of region total). Avg raw 0.30. Ordinary law applies consistently to state agents and everyone else.

Lever 2: Independent Judiciary | 0% Yes (0/5)
Annual exclusion: $757.7B (13% of region total). Avg raw -0.50. Courts can uphold right-to-life laws, including against the state.

Lever 3: Law Enforcement Accountability | 40% Yes (2/5)
Annual exclusion: $595.7B (10% of region total). Avg raw 1.07. Law enforcement agencies are accountable for unlawful killings and violence.

Lever 4: Protection Against Arbitrary Detention | 60% Yes (3/5)
Annual exclusion: $520.7B (9% of region total). Avg raw 0.60. Arbitrary detention is prohibited with real legal recourse.

Lever 5: Freedom from Torture and Inhumane Treatment | 0% Yes (0/5)
Annual exclusion: $757.7B (13% of region total). Avg raw -0.13. Measures are in place to prevent torture and inhumane treatment.

Lever 6: Civilian Protection in Conflict Zones | 60% Yes (3/5)
Annual exclusion: $520.7B (9% of region total). Avg raw 0.61. Mechanisms protect civilians during conflict.

Lever 7: Access to Justice | 0% Yes (0/5)
Annual exclusion: $757.7B (13% of region total). Avg raw 0.30. Ordinary people can bring serious claims and have them heard fairly.

Lever 8: Freedom of Expression and Whistleblower Protections | 60% Yes (3/5)
Annual exclusion: $520.7B (9% of region total). Avg raw 0.48. Expression and whistleblower rights are protected from retaliation.

Lever 9: Socioeconomic Conditions | 0% Yes (0/5)
Annual exclusion: $757.7B (13% of region total). Avg raw 0.00. A minimum floor against extreme deprivation is maintained.

Critically, every single nation in the Eastern Asia region is currently failing lever 2: Independent Judiciary. The portion of the region's capital exclusions (after the 25% cap) associated with this lever is $757.73 billion.

Note: Weighted R is population-weighted mean of member countries' R. Attributable lost for an indicator = sum over countries with 'No' on that indicator of (η/9 × G_0 × pop) with current η=0.30. See individual nation profiles for country-level detail and 3-year trends.

UN REGIONAL SUMMARY

Northern America

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
2	381.4m	0.57	$4,869.4B

The Northern America region has a population-weighted average RTLP score of 0.57. This cumulative measure indicates that, across its 2 member countries, roughly 57% of the nine core protections are in place on average, corresponding to an estimated $4,869.39 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in Law Enforcement Accountability, Protection Against Arbitrary Detention, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Legal Protections, Access to Justice—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $2,569.31 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.

UN REGIONAL SUMMARY

South America

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
12	435.3m	0.42	$824.5B

The South America region has a population-weighted average RTLP score of 0.42. This cumulative measure indicates that, across its 12 member countries, roughly 42% of the nine core protections are in place on average, corresponding to an estimated $824.54 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in Civilian Protection in Conflict Zones, Freedom of Expression and Whistleblower Protections, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Freedom from Torture and Inhumane Treatment, Access to Justice—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $479.97 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.

Critically, every single nation in the South America region is currently failing lever 7: Access to Justice. The portion of the region's capital exclusions (after the 25% cap) associated with this lever is $170.95 billion.

Note: Weighted R is population-weighted mean of member countries' R. Attributable lost for an indicator = sum over countries with 'No' on that indicator of ($\eta/9 \times G_0 \times$ pop) with current η=0.30. See individual nation profiles for country-level detail and 3-year trends.

UN REGIONAL SUMMARY

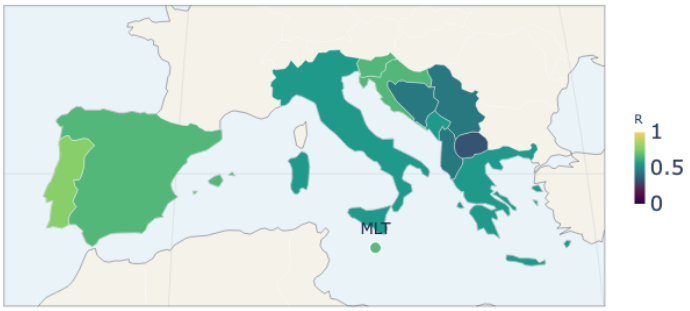

Southern Europe

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
14	150.2m	0.60	$713.2B

The Southern Europe region has a population-weighted average RTLP score of 0.60. This cumulative measure indicates that, across its 14 member countries, roughly 60% of the nine core protections are in place on average, corresponding to an estimated $713.25 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in Protection Against Arbitrary Detention, Civilian Protection in Conflict Zones, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Legal Protections, Access to Justice—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $592.64 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.

UN REGIONAL SUMMARY

Western Africa

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
16	456.2m	0.27	$140.9B

The Western Africa region has a population-weighted average RTLP score of 0.27. This cumulative measure indicates that, across its 16 member countries, roughly 27% of the nine core protections are in place on average, corresponding to an estimated $140.92 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in Freedom of Expression and Whistleblower Protections, Protection Against Arbitrary Detention, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Access to Justice, Socioeconomic Conditions—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $68.05 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.

UN REGIONAL SUMMARY

Central Asia

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
5	82.3m	0.15	$122.4B

The Central Asia region has a population-weighted average RTLP score of 0.15. This cumulative measure indicates that, across its 5 member countries, roughly 15% of the nine core protections are in place on average, corresponding to an estimated $122.38 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in several key areas, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Freedom from Torture and Inhumane Treatment, Access to Justice—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $46.98 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.

Annual exclusion: $3.5B (7% of region total). Avg raw 1.61. Law enforcement agencies are accountable for unlawful killings and violence.

Lever 4: Protection Against Arbitrary Detention | 23% Yes (3/13)
Annual exclusion: $6.6B (13% of region total). Avg raw 0.53. Arbitrary detention is prohibited with real legal recourse.

Lever 5: Freedom from Torture and Inhumane Treatment | 8% Yes (1/13)
Annual exclusion: $8.5B (17% of region total). Avg raw 1.05. Measures are in place to prevent torture and inhumane treatment.

Lever 6: Civilian Protection in Conflict Zones | 46% Yes (6/13)
Annual exclusion: $692.5M (1% of region total). Avg raw 0.78. Mechanisms protect civilians during conflict.

Lever 7: Access to Justice | 8% Yes (1/13)
Annual exclusion: $7.9B (16% of region total). Avg raw 0.10. Ordinary people can bring serious claims and have them heard fairly.

Lever 8: Freedom of Expression and Whistleblower Protections | 38% Yes (5/13)
Annual exclusion: $692.5M (1% of region total). Avg raw 0.75. Expression and whistleblower rights are protected from retaliation.

Lever 9: Socioeconomic Conditions | 8% Yes (1/13)
Annual exclusion: $3.8B (8% of region total). Avg raw 0.00. A minimum floor against extreme deprivation is maintained.

Critically, every single nation in the Caribbean region is currently failing lever 1: Legal Protections. The portion of the region's capital exclusions (after the 25% cap) associated with this lever is $8.77 billion.

Note: Weighted R is population-weighted mean of member countries' R. Attributable lost for an indicator = sum over countries with 'No' on that indicator of ($\eta/9 \times G_0 \times$ pop) with current η=0.30. See individual nation profiles for country-level detail and 3-year trends.

UN REGIONAL SUMMARY

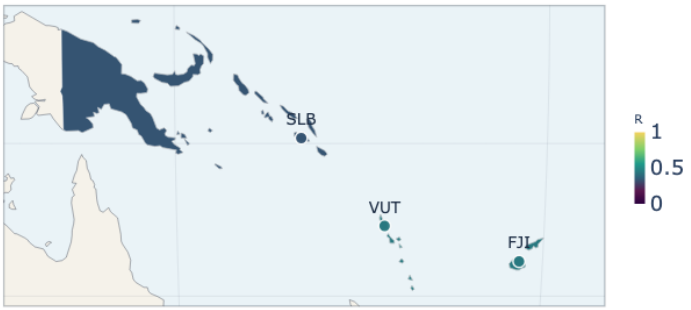

Melanesia

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
4	12.7m	0.34	$9.4B

The Melanesia region has a population-weighted average RTLP score of 0.34. This cumulative measure indicates that, across its 4 member countries, roughly 34% of the nine core protections are in place on average, corresponding to an estimated $9.43 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in Protection Against Arbitrary Detention, Civilian Protection in Conflict Zones, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Access to Justice, Socioeconomic Conditions—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $4.86 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.

Melanesia Region — Enclosure Strength (R)

Mollweide projection (equal-area, same RTLDI atlas R scale as global choropleth).

Critically, every single nation in the Melanesia region is currently failing lever 1: Legal Protections. The portion of the region's capital exclusions (after the 25% cap) associated with this lever is $1.62 billion.

Note: Weighted R is population-weighted mean of member countries' R. Attributable lost for an indicator = sum over countries with 'No' on that indicator of ($\eta/9 \times G_0 \times$ pop) with current η=0.30. See individual nation profiles for country-level detail and 3-year trends.

UN REGIONAL SUMMARY

Polynesia

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
4	0.3m	0.00	$0.5B

The Polynesia region has a population-weighted average RTLP score of 0.00. This cumulative measure indicates that, across its 4 member countries, roughly 0% of the nine core protections are in place on average, corresponding to an estimated $0.50 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in several key areas, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Freedom of Expression and Whistleblower Protections, Socioeconomic Conditions—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $0.17 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.

Mollweide projection (equal-area, same RTLDI atlas R scale as global choropleth).

Critically, every single nation in the Polynesia region is currently failing lever 1: Legal Protections. The portion of the region's capital exclusions (after the 25% cap) associated with this lever is $0.06 billion.

Note: Weighted R is population-weighted mean of member countries' R. Attributable lost for an indicator = sum over countries with 'No' on that indicator of ($\eta/9 \times G_0 \times$ pop) with current η=0.30. See individual nation profiles for country-level detail and 3-year trends.

UN REGIONAL SUMMARY

Micronesia

COUNTRIES	POPULATION	WEIGHTED R	CAPITAL EXCLUSIONS
4	0.3m	0.05	$0.3B

The Micronesia region has a population-weighted average RTLP score of 0.05. This cumulative measure indicates that, across its 4 member countries, roughly 5% of the nine core protections are in place on average, corresponding to an estimated $0.34 billion in capital exclusions (lost potential GDP) annually. The region demonstrates particular strength in several key areas, where a substantial share of countries satisfy the binarization thresholds for those indicators. These protections represent opportunities to support greater economic scale for life and capital.

Strengthening the areas with lower implementation—especially Access to Justice, Freedom of Expression and Whistleblower Protections—is associated with the largest opportunities for realizing additional scale in the region (after the 25% contextual bound). The cross-sectional association links stronger protections to greater economic scale of roughly $0.12 billion annually for the region as a whole (within the bound). Whether and how much of that association is realized depends on the other determinants of output (industry structure, resources, human capital, history) that the model explicitly accounts for by bounding the contribution of these nine factors.
